Migration of Xetra to T7 trading technology/T7 Release 5.0: Publication of documents

Dear Sir or Madam,

In connection with the migration of Xetra to T7 trading technology scheduled for June 2017 as part of T7 Release 5.0, we have now published the following documents:

- **T7 Enhanced Trading Interface Manual - Preliminary version including Cash Market Reference, XML representation and layouts**
This document describes the main concepts of the T7 Enhanced Trading Interface as well as all message formats.
- **T7 Market-, Enhanced Order Book- and Reference Data Interfaces, Manual – Preliminary version including XML representation, FAST Templates and FIXML schema files**
The documentation covers a complete reference for the three multicast based public interfaces Enhanced Market Data Interface, Market Data Interface and Enhanced Order Book Interface. Furthermore, it describes the general business behaviour and provides concepts for the implementation.
